

THE LOVERS

Fuckedsheet 04.2019 - English

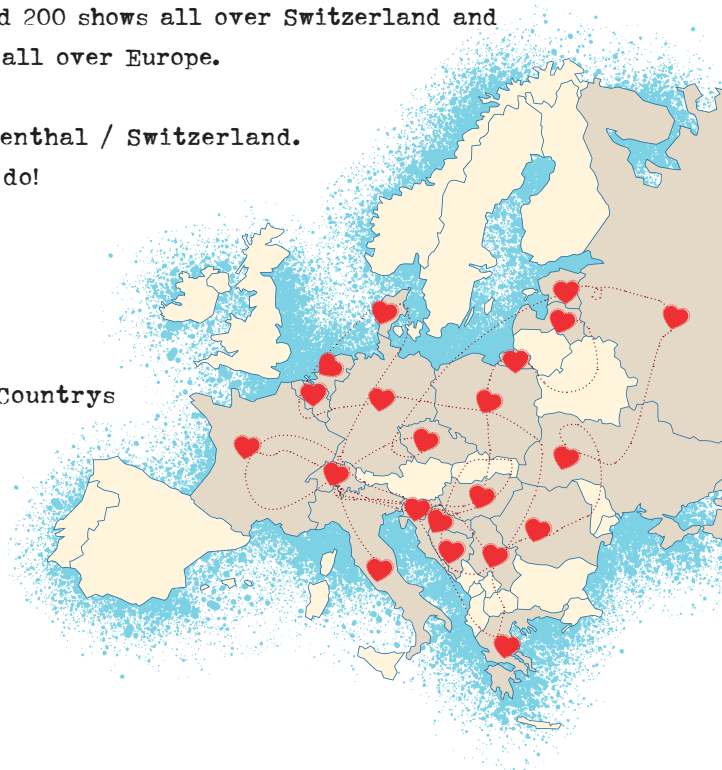

HOLY HEART ATTACK!

You might think THE LOVERS are finally old enough to know better! Fortunately, they are not! Loud garage rock and ecstatic RockandRoll with a spicy pinch of blues and power pop of the wild sort are the focus of each of their sweaty live shows.

The return to the foundations of modern rock'n'roll - the blues and the early punk - forms both the musical basis and the starting point for the innovative development of the style. The live program consists almost exclusively of own compositions and is characterized by a sweaty intensity and dilettante joy of playing and megalomaniacal risk-taking. Since its foundation in 2013, THE LOVERS have played 200 shows all over Switzerland and during four foreign tours in 20 different countries all over Europe.

THE LOVERS are a blues-punk band from Langenthal / Switzerland. Come to a show and see the world how THE LOVERS do!
